

Washington State EngageNY Math Users' Group

<http://engagewa.wikispaces.com/EngageNY+Washington+State+Users+Group>

Mission Statement

We are a community of educators committed to improving math instruction and assessment to help students meet the Washington state learning standards through the use of EngageNY/Eureka Math.

Our work centers on the following actions that we believe will help achieve this goal:

- Pooling quality resources to support EngageNY and Eureka Math teaching and assessment practices
- Providing an opportunity for collaboration and support among teachers from across the state
- Sharing best practices in math instruction as guided by the NCTM's *Principles to Actions*
- Communicating details of successful implementation strategies
- Ensuring all resources posted are openly licensed so they can be freely and legally shared and adapted

Background

In 2015, Educational Service District 113 received a grant from the Open Educational Resources (OER) Project at the Office of Superintendent of Public Instruction to assemble a statewide task force to create a vision and provide the foundation of this EngageNY Mathematics Users' Group. Currently, Puget Sound Educational Service District has grant funding from the OER Project to facilitate the further growth and development of this user group. Bethel School district plays a leadership role in the creation of this resource and provides ongoing hosting of the user group site.

EngageNY Mathematics is core instructional material covering grades P-12 addressing Common Core State Learning Standards. Under a competitive contract process, it was developed for the New York State Education Department as an open resource by Great Minds. Great Minds' Eureka Math offers additional fee-based resources and professional development that build on the EngageNY materials. This site is a supplement to both these resources.

Using this Site

- Anyone can view and download resources.
- Only members may add content or participate in a discussion board.
- As a member adding resources, please make sure that the resource is openly licensed PRIOR to upload.

Please note that is an evolving resource. Currently there are districts at work with the specific goal of curating and uploading middle and high school instructional materials.

If your district has materials to share in this area, consider joining the user group. See next page for first steps.

To Become a Member

1. Visit: <http://engagewa.wikispaces.com>
2. At the top of the page, above the logo, click on **Join Now** in the yellow bar.
3. On the next page, you will see a **Join Now** pop-up window. Enter a username, password, and your email address. Then click **Join** at the bottom left of the window.
4. The account manager will receive your request, and will send you a quick form to fill out. Once the form is filled out, you will receive notification that your request has been accepted.

Acknowledgements

The following districts collaborated in the design and structure of this site:

Bethel School District
Federal Way Public Schools
Ocosta School District
Raymond School District
Spokane Public Schools

The following organizations provided project support and facilitation:

Educational Service District 113
Puget Sound Educational Service District
Office of Superintendent of Public Instruction – OER Project

We express our gratitude to all the educator contributors to this effort. Without their support and expertise, this resource would not be possible
